ROOSEVELT'S MESSAGE IS READ TO LAWMAKERS OF THE NATION

PUBLIC QUESTIONS ARE HANDLED BRAVELY

Railroad Legislation Commands Most Attention, Though Other Important Matters Are Spoken of at Length and in Manner That Attracts Attention

WITH keen interest the annual message of President Roosevelt was read in both branches of Congress yesterday. Never has a message been received with more marked attention; never has a president's message embodied so much of interest to the nation and it can be truthfully said that seldom has a president handled all public questions in such a fearless manner. Nothing affecting the welfare of the nation has been overlooked. Unquestionably Mr. Roosevelt's utterances on the railroad question will command more attention than all others. A synopsis of the entire message is given in the Journal this morning

WASHINGTON, Dec. 5.—President Roosevelt's annual message, the most interesting as well as [illegible] portant in many years, was read [illegible] both houses of Congress [illegible] today. Immigration, civil [illegible] Monroe doctrine, railroad [illegible] spoken of in a way [illegible] but make the Democrats [illegible] in nearly every instance [illegible] showed that he is [illegible] of the opening sentences [illegible] sage best tells of [illegible] it:

"Against the wrath of the Lord, the wisdom of man cannot avail; in the [illegible] of flood or [illegible] famine [illegible] can but partially [illegible] the disaster. A general failure of [illegible] would [illegible] all of us."

CORPORATIONS

In speaking of corporations the President strongly recommends that the government have more power in their supervision. He is not against the pooling of interests, claiming such a course would be vicious. More than [illegible] words are given to defining his policy on this mooted question.

SAFETY APPLIANCES

The number of serious collisions on railroads during the last year [illegible] forth a recommendation for [illegible] safety appliances and the appointment of more inspectors to see that the law is enforced.

BETTER HOURS

He shows his kindly feeling toward railroad employes by [illegible] legislation that will tend to better the conditions of the men upon whom depends the safety and lives of the traveling public.

LIABILITY LAW AND LABOR

The message urges [illegible] necessity of an [illegible] law to protect those who work for a living. The rights of labor [illegible] recognized, but the [illegible] that these can [illegible] tled by the state rather [illegible] tional government. In the District of Columbia, however, he urges the importance of good streets, parks and well ventilated buildings and [illegible] stamp of disapproval upon [illegible] houses.

INSURANCE QUESTION

The insurance question is [illegible] [illegible] the insurance [illegible] [illegible] events have [illegible] [illegible] the necessity of closer [illegible] of the affairs of the big [illegible] [illegible] has only also [illegible] [illegible] no matter how grossly guilty [illegible] [illegible] of moral obligation. The same [illegible] can also be said of fraternal [illegible] benevolent organizations who [illegible] in insurance.

REVENUE

In the matter of revenue he believes that before everything [illegible] arrangement must be [illegible] the states that will confer equal advantages upon all. It [illegible] is accomplished a fair system of [illegible] be arrived at.

SILVER OVER GOLD

The silver question is [illegible] under the head of [illegible] in a measure it [illegible] stating that the [illegible] at present [illegible] [illegible] [illegible] The business [illegible] eral of the department's [illegible] as is the policy of economy in the general budget of expenses in the national government.

Stanford Men Raise Disturbance at Theatrical Performance and Riot Ensues When Officers Try to Interfere

SAN JOSE, Dec. 5.—A telephone message from Palo Alto conveys the information of a fight there tonight between a [illegible] special deputies and about 150 Stanford students, several of whom were severely injured by the clubs wielded by the officers. Constable Hall of Palo Alto, it is said, heard that the students planned to "rough house" a theatrical troupe that was scheduled to present "Uncle Tom's Cabin" at Mellis Hall, Palo Alto, tonight.

Hall immediately swore in fifteen deputies and went to the theater. A disturbance was started and Hall, in endeavoring to arrest a student, precipitated a general fight, during which the college men overpowered the officers. No arrests were made.

MILLION DOLLARS FOR A DIVORCE

IT is now reported that Mrs. W. Ellis Correy, wife of the president of the United States Steel Trust is in collusion with her husband, that she will receive $1,000,000 that he may wed an actress

STEEL MAGNATE IS IN LOVE WITH ACTRESS

Two Stories Come Floating Out From East in Regard to Family Affairs of Woman Who Has Been Making Reno Her Home for Past Five Weeks

THERE was no end of surprise at the report published exclusively in the Journal yesterday morning that Mrs. W. Ellis Corey, wife of the president of the United States Steel Trust, is in Reno for the purpose of securing a divorce from her husband, who is alleged to be in love with Miss Mabel Gilman, an actress.

Mrs. Corey was seen in the afternoon and refused to be interviewed. She admitted being the wife of the president of the steel trust, but refused to either confirm or deny the report that she is here to secure a divorce from her husband. A reply to the statement that for entering into the agreement to give her husband a decree she is to receive $1,000,000 in cash was also unanswered.

J. B. Corey, uncle of the steel king at Pittsburg, says the story is true.

Miss Corey, sister in law of Mrs. Corey, who with an unknown friend, is living with her in Reno, stated that when the party left the east all were on good terms, but that they are not so friendly at present. The party has secured a handsomely furnished home here, has an automobile, takes evening jaunts through the country and everyone in fact is living in luxury, though in a quiet manner. Mrs. Corey is a pleasant young woman, but her face plainly shows that she is worrying under the strain caused by the separation from her husband. It requires six months to establish a residence in Nevada. Mrs. Corey has been in Reno about five weeks. In that brief time her pleasant manner has won her many friends who stand ready to battle for her cause—right or wrong.

Eastern Trout for Nevada

Fish and Game Warden G. C. Thomas submitted yesterday to the board of county commissioners a proposition from J. P. Morrill and William Elliott whereby the latter shall furnish 100,000 Eastern brook trout swimming fry to be planted in Washoe county streams. In return for this Morrill and Elliott shall return to the county 10 per cent of all egg-eyed spawn which shall be taken out by them.

This will end the necessity of taking any more California trout from Lake Tahoe or elsewhere.

MORE TROUBLE IN STORE FOR THE POUNDMAN

City Attorney Stoddard States That if Scales Enters Private Property to Catch Dogs He Is Violating the Law and Should be Prosecuted for Same

Poundmaster Scales, from present indications is just entering upon a stormy sea of troubles. The public is after his scalp and it is likely the council will be called upon to forfeit his bond or discharge him.

City Attorney Stoddard, who has been investigating the complaint of Mrs. Cosand, as exclusively reported in the Journal yesterday morning, states that Scales is not empowered to violate private property, that he is not given authority to enter private yards and impound dogs. Not only this, but Mr. Stoddard states that he will inform the council at its next meeting that Scales, if he has entered yards and taken dogs therefrom, has violated the law and should be punished.

Scales in the meantime continues to catch dogs. The city pound is full of canines of every description and Scales is piling more in. At the present rate the supply will soon be exhausted, but Mr. Scales is optimistic and looks forward to another harvest beginning next month. At that time all dogs upon which the licenses are not paid will be subject to recapture or the payment of another $2.

"While they are all hollering at me I'm getting my coin," is all Scales will say.

Yesterday it is reported he entered a stable and took a dog belonging to Sam Wheeler. As soon as Mr. Wheeler learned of the fact he went to the pound and paid Mr. Scales 50 cents and redeemed the dog. Mr. Wheeler states that Scales refused to give him a receipt for the money. Further developments are expected.

In the meantime Scales is catching dogs.

Stranger Says He Was Robbed

Justice Pollock was visited yesterday by J. M. Berg, a stranger in town, who claims he was robbed yesterday morning by a Mexican or Spaniard whose name he says he does not know. Berg declared he met his would-be friend in a saloon and later he went to a barber shop for a bath. While there he says the Mexican entered the room and rifled the pockets of about $12 and a gold watch.

Justice Pollock refused to issue a warrant for the arrest of the Mexican on account of the fact that Berg admitted he was under the influence of liquor. His certainty of having been robbed was regarded by the judge as none too great.

COUNCILMAN WILSON IS MAYOR OF RENO

The matter was referred to him at the last session.

"There is not the least doubt but Councilman Wilson is mayor of Reno," said Mr. Stoddard yesterday. "The [illegible] on this question. In the event that something should befall Mr. Wilson it would then be necessary for the council to meet and elect a mayor pro tem. As it is now a meeting cannot be held unless Mr. Wilson is present. [illegible] office of [illegible] of Mayor [illegible] or Mr. Wilson was [illegible] necessary."

ROOSEVELT TO LAWMAKERS

ANNUAL MESSAGE OF PRESIDENT IS READ

Document Is of Interest to the Citizens of the United States and Deals in Fearless Manner With the Much Mooted Railroad Question of Rates

(Continued from Page One)

Panama canal during the past year is submitted and it is recommended that a larger appropriation be made for the department of state.

THE RAILRAODS

A forceful argument on the railroad question is made in the opening lines of the message. After describing the existing conditions the President says:

"I urge upon the congress the need of providing for expeditious action by the Interstate Commerce Commission in all these matters, whether in regulating rates for transportation or for storing or handling property or commodities in transit. The history of the cases litigated under the present commerce act shows that its efficacy has been to a great degree destroyed by the weapon of delay, almost the most formidable weapon in the hands of those whose purpose it is to violate the law.

"Let me most earnestly say that these recommendations are not made in any spirit of hostility to the railroads. On ethical grounds, on grounds of right, such hostility would be intolerable; and on grounds of mere national self interest we must remember that such hostility would tell against the welfare not merely of some few rich men, but of a multitude of small investors, a multitude of railway employes, wage workers, and most severely against the interest of the public as a whole. I believe that on the whole our railroads have done well and not ill; but the railroad men who wish to do well should not be exposed to competition with those who have no such desire, and the only way to secure this end is to give to some government tribunal the power to see that justice is done by the unwilling exactly as it is gladly done by the willing.

"Moreover, if some government body is given increased power the effect will be to furnish authoritative answer on behalf of the railroad whenever irrational clamor against it is raised, or whenever charges made against it are disproved. I ask this legislation not only in the interest of the public, but in the interest of the honest railroad man and the honest shipper alike, for it is they who are chiefly jeopardized by the practices of their dishonest competitors.

"This legislatnon should be enacted in a spirit as remote as possible from hysteria and rancor. If we of the American body politic are true to the traditions we have inherited we shall always scorn any effort to make us hate any man because he is rich, just as much as we should scorn any effort to make us look down upon or treat contemptuously any man because he is poor."

"What we need to do is to develop an orderly system; and such a system can only come through the gradually increased exercise of the right of efficient government control."

SKATERS HAVE NARROW ESCAPE

Engineer Nicholas Prevents Serious Accident on Resevoir of Union Company

Between thirty-five and forty men and women and young people came close to death yesterday on the reservoir of the Union Power, Light and Water Company. [illegible] above a vacuum of [illegible] feet [illegible] reservoir of water filled to a depth of from eight to ten feet they were skating when engineer Nicholas in charge of the water department arrived and warned them of their danger.

The ice was much too thin to sustain the weight of so many [illegible] that it did not break [illegible]. There was absolutely no [illegible] of rescue had any of the crowd fallen through the ice. It would have meant death to venture near [illegible] not even a board to be thrown to [illegible] one in need was at hand.

Engineer Nicholas [illegible] warned the skaters of their danger and they lost no time in getting off the ice. The danger would not be so great [illegible] not for the fact that the water [illegible] are constantly [illegible] from the reservoir [illegible] vacuum of from one to two feet between the ice and the surface of the lake. The ice thus [illegible] danger of breaking [illegible] weight upon it.

The company will post [illegible] the reservoir this morning warning skaters of the danger.

TO FIGHT FOR THE PARDON OF CHRISTY

The attorneys who were so instrumental in getting a confession from a prisoner named Burns, convicted by District Attorney Craig, exonerating Sabin and Christy of the hold up at the Brewery saloon last July, are now preparing to do what the public at the time suspected—secure a pardon for Christy. Experienced lawyers in Reno state that the Burns confession is the work of a shrewd criminal launched in the hope of freeing guilty men. Many in Reno believe the board of pardons will not give the plea much consideration. The petition at any rate is to be vigorously opposed on the grounds that the district attorney believes the confession to be false from beginning to end.

Expect a General Shake-up

CHICAGO, Ill., Dec. 5.—President Zina R. Carter and other members of the Board of Drainage Canal Commissioners stepped out today and President Robert R. McCormick and the eight other members of the board, recently elected, will take their places. It is expected that the change of administration will be followed by a general shake-up among the employes of the drainage board and many of the heads of departments are preparing for emergencies. The chief interest centers in the selection of the heads of the finance and engineering committees. These are the only two committees on the board that are of wide importance. The chairman of the engineering committee will have much to say about the branch canals through the Evanston and Calumet districts which are to be built. The chairman of the finance committee will exercise large control over the manner in which the millions the new board must expend are to be disbursed. The construction of the branch canals has been estimated to cost about $15,000,000, while in the coming five years nearly as much more is likely to be expended in completing the work at Joliet, in improving the river, in building bridges and for maintenance and administration. Trustee Frank X. Cloidt, the former chairman of the finance committee, has been re-elected this year, but it is considered doubtful whether he will again be made chairman of the finance committee.

Entertainment Club Reunion

NEW YORK, Dec. 5.—The Entertainment Club, the principal object of which is the development of friendly relations with representatives of foreign countries, held its tenth annual reunion at the Waldorf-Astoria this evening. The reunion and banquet will be "in honor of our British cousins." The guest of honor will be the British ambassador, who will be accompanied by Lady Durand, Miss Durand and many members of his official staff. Among the other guests will be Sir Percy Sanderson, Mrs. Craigie, Miss Eliot, Count and Countess Massiglia, the president of the St. George and other societies. Robert B. Roosevelt, the brother of the president, will preside and there will be five-minute speeches by General Miles, General Woodford, Borough President Littleton and others.

Lake Season Closes

CHICAGO, Ill., Dec. 5.—The shipping season on the lakes closed officially today and all marine insurance expires. It is asserted that the closing of the season finds the coal situation along the lakes highly unsatisfactory. The demands for coal have been far greater than the supply, principally owing to the shortage of cars. The latter was caused by the fact that during the summer there was a great lack of men to handle the coal at the docks. During the month of August there were days when there were more than 3,000 cars at the lake fronts to be unloaded.

Sparks Board of Trade to Adopt This Plan of Advertising the State

Mrs M M Garwood representing the old Reno Chamber of Commerce was in this city yesterday [illegible] soliciting aid from the Sparks Board of Trade [illegible] the mineral exhibits of the Reno [illegible] which have been [illegible] by the [illegible] The matter [illegible] taken up at a special meeting of the board of trade held last week and the board refused to take any action in the matter

It was stated yesterday by a member of the Board of Trade that it was [illegible] that that organization would [illegible] attempt to use the [illegible] amount $[illegible] as the idea of gathering a mineral exhibit had been given up by the board

The Board of Trade intends advertising this section of the state by distributing copies of the descriptive [illegible] "New Nevada" [illegible] published by the Southern Pacific Company A communication has been sent to Charles S [illegible] passenger traffic manager of the Southern Pacific Company at San Francisco asking for [illegible] copies of the [illegible] which will [illegible] to different localities together with a circular descriptive of this city

SPECIAL SERVICE FRIDAY MORNING

Feast of the Immaculate Conception Will Be Celebrated Next Friday

Next Friday will be the feast of the Immaculate Conception of the Blessed Virgin Mary The feast is observed in the Catholic church as a holiday of obligation It is of special significance in this parish as it is the titular feast of the church Last year the church was built in this city and as it was the jubilee year of the Immaculate Conception it was dedicated to Mary Immaculate

In order that the patronal feast may be fittingly observed two masses will be celebrated in the church next Friday The first mass will be celebrated at 6 30 a m to give working men an opportunity to attend The second mass at [illegible] a m will be a high mass The celebrant of the mass will be the Rev Thomas [illegible] Horgan of Jackson Cal The choir of this city will be assisted by talent from Reno

At the [illegible] o'clock mass the pastor of the church will preach on The Immaculate Conception The sermon will be for the most part explanatory and dogmatic

In the evening at 7 o'clock devotions consisting of rosary and benediction will be held All are cordially invited to these services

DO NOT LAPSE YOUR POLICIES

SO URGES STUDENT OF INSURANCE QUESTION

Wright Adair Says That Persons Who Hold Written Guarantees of Old Line Concerns Are Sure of Having Their Investments Thoroughly Protected

To the Policy Holders of Legal Reserve Companies The attacks made by Thomas W Lawson of Boston upon the three giant companies to wit the Equitable the Mutual and New York Life Insurance Companies of the state of New York has caused widespread discontent and suspicion among policyholders of the said companies and every other old line company Mr Lawson's attack against the three companies named is certainly justifiable no matter what the motive may be but to quiet the qualms of a guilty conscience and try to reduce it is the conflicting public opinion even with rivals in the past vilified Financier or suppose friends who played him false Justifiable for the reason that it turns the light of public scrutiny into the methods of these companies in carrying out the trusts enjoined upon them by the public but justifiable for the reason that the publicity given to the acts of these officers will curtail and reduce enormous salaries and unnecessary expenses in many directions it will compel legislation that will tend to the safeguarding of the investments of the policy holders Mr Lawson is a great man he has been a Napoleon in Frenzied Finance and by his own admissions has helped to filch many a hard earned dollar from the confiding susceptible public He is great as a writer of vigorous language and his vocabulary ranks exceedingly great May he succeed in compelling an honest truthful stewardship of the affairs of the giant companies All honor to the man who fights for the welfare of his fellow beings even if he at one time was a leader among men whose methods he now condemns

Cause and effect should always be carefully considered but the cause of Lawson's course we care nothing about it is the effect we must consider

The writer has been in the life insurance business for fifteen years and knows from personal experience and observation that old line or legal reserve insurance has caused one hundred time more good than it has harm he knows it has saved money for the improvident saved the family from poverty and distress saved the business man from failure and made old age independent and comfortable Mind you he is not writing this article in behalf of any particular company but only in behalf of justice and truth in behalf of the welfare of the public the people who while mighty and irrepressible in power may be influenced by rumor to sacrifice their insurance under excitement or wrong impression The writer does not represent the Equitable the Mutual or the New York Life but desires to say to any and every policy holder that he will make a mistake to give up or lapse his policy in the companies complained of The legal reserve required by law to mature each and every contract is absolutely intact and safe Any one of the three companies mentioned can quit business today in the way of soliciting new business and nature every contract paying every cent they have guaranteed

What is the legal reserve? It is an amount set aside that constitutes the excess over the cost of carrying the insurance and which invested at three or four per cent compound interest whatever it may be will enable the company to pay what they guarantee What is the surplus? It is the amount earned over and above the legal reserve and pays dividends It is in addition to the legal reserve

The giant companies it is true in the great fight to be the leaders used the surplus in many extravagant ways and the result might possibly be a reduction in dividends but the amount of reduction per thousand of insurance while it has been wrongfully applied and which in the aggregate would amount to considerable will not affect materially the individual policy holder The structure of life insurance—its foundation its purposes—stand today as strong and true as it always has It is just as necessary as it was ever ago it is the anchor sheet it saves money and protects the earning capacity of every man Savings banks are good and lay the foundation oftentimes for future success Some have failed but the fact exists that many times more have remained solvent and carried out all obligations and done much good So it is with life insurance companies The principle of life insurance has been tried and proven beneficial for sixty years and the failure of trusted officials in three or four companies to be due to the trust does not affect the structure and principle upon which the companies are founded

To have lost faith in the principles of life insurance because the three great companies have appropriated a part of the surplus belonging to policy holders is no more warranted than to condemn the principles of banking because banks sometimes fail to condemn all men because some men are dishonest There are many good companies that investigation will prove true and faithful to their patrons The principles of life insurance to wit protection and saving stand today and will stand true and as eternal as the grand Sierras

Keep your policies the guarantee made by any and every old line company is sure There have been less failures in old line or legal reserve insurance than in any business on earth. Dividends may vary moderate sized companies are best as choice investments can be made in our own country of their assets but still in the giant companies your policy is safe and you cannot afford to change or lapse The investigation precipitated by Mr Lawson will only make safer in the future your investment that has been already proved by half a century of test and trial it is the best and safest investment you can make

IMMENSE SHOOTS IN GOLD CREST

The Surface Values Are Phenomenal and a Deep Working Shaft Will be Started at Once

Without doubt the property which makes the best showing for the amount of development in the Goldfield district, is that of the Gold Crest Mining Company, which owns 35 full claims on which much active exploitation work has been advanced the past season under the direction of Judge Peter J. Somers. The lead has been traced on the surface for 7500 feet making it nearly twice as long a pay shoot as any other mine in the world, the next longest being that of the Midas mine in Shasta county, California. The property is located around Federal Peak at the junction of the Gold Mountain range and the Grapevine range, just half way between Goldfield and Bullfrog. The immense porphyry dykes which [illegible] through this property are unequaled in the State of Nevada, and [illegible] with them are the quartz ledges which even on the surface show wonderful values. And it is believed by experts of conceded ability that a shaft driven down at the junction of a network of veins will conclusively demonstrate the existence of shoots of ore of great value. While the amount of development is comparatively [illegible], it is the consensus of opinion of those competent to judge, who have examined it, that the property indeed has a remarkable surface showing, something necessary to be seen in order to be believed. Several hundred assays have been had from time to time running from nine dollars to $316 per ton in gold. From the outcrop of the lead many specimens have been broken wonderfully rich in free gold, and this too, has been done by strangers who had no interest whatever in the property.

It is proposed to at once install machine drills, sink a deep vertical shaft and thoroughly exploit the property. The company's holdings are in a district already proven to be of wonderful production capacity, and in the heart of Nevada's great mineral zone. The officers of the company are P. J. Somers, president and manager; C. F. D. Pullen, treasurer; M. D. Kelly, secretary; Governor Sparks, John Nevin are also interested. The active development of this property means a great deal for that section, and as the work so far done warrants the belief that even richer ore shoots will be encountered at depth the most aggressive exploitation is fully warranted by surrounding conditions.

RICH STRIKES IN WHITE HORSE

The Lower Levels on the Oro Show Very High Values

Strikes of wonderful richness are being reported from White Horse district and it is [illegible] that the [illegible] making fully as good showing as any section of the state. The [illegible]-Nevada company [illegible] on the morning of the [illegible] to work. The [illegible] owned by this company, [illegible] in the bottom of the shaft a strong and well defined body of ore more than four feet wide, which averages [illegible] in gold per ton, and on the lower level of the Oro also owned by this company, there is a very large body of ore [illegible] of exceedingly good milling material. This company will [illegible] at once.

In the bottom of the shaft of the Jack Pot, owned by John Hamilton, [illegible] rich ore has been encountered.

The Texas-Nevada Company [illegible] on the 165 foot [illegible] some very [illegible]. Manager J. M. Thomas [illegible] has a large force at work [illegible] on the drifts and stopes of the [illegible] preparatory to active exploitation and the mill is being put in shape for a large run.

J. P. Crosby arrived in the city yesterday and reports mining very active in that section.

SULPHUR DEPOSIT TO BE DEVELOPED SOON

[illegible] Turner, of Hibbard & [illegible] is negotiating with Salt Lake [illegible] for the sale of the large sulphur [illegible] owned by John Razer, in the [illegible] part of Humboldt county, [illegible].

There is an immense deposit here [illegible] very little developed yet. There is sufficient quantity already [illegible] to prove the existence of a [illegible] of almost pure sulphur. Near the [illegible] great blocks of copper [illegible].

This [illegible] which has been known for a great many years has attracted little or no attention until recently. A specimen [illegible] window of Hibbard & T[illegible] office.

BRIEF MENTION OF STATE MINES

Many Districts Show Great Activity and New Reduction Plants Being Installed

There is much activity in the Searchlight district, and indications point to a steady development of the properties now being worked and with every assurance that many new ones are to be opened up. All conditions favor mining on a large scale, and it is believed that Searchlight will at no distant day be one of the best camps in the state.

Mining men predict a bright mining future for Lorena, the new town in Masonic district. The first shipment of ore was received in Reno last week and returned $250 per ton.

Hudson and Fletcher, who lately took over several good properties in Mt. Grant district, Mono county, have also taken a six months lease on the Dunderberg mill. They have 50 tons of good ore already at the mill, and will at once make a run.

The richest discoveries so far made in the New Pine Creek district is on the Jeter claim. A limited amount of development work has been done, and a small but well defined ledge has been disclosed. Much of the ore shows coarse gold, and assays have been had as high as $185 per ton.

The Gold Bug, near Caliente, improves in value as depth is attained. The vein is more than 30 feet wide and in grade increases in value. The Seibert group is said to be very valuable; also the Homestake. The Advance in the Chief mining district, is being actively exploited. The first gold mill in that section will be installed by the Caliente Gold Mining Co.

The Montgomery-Shoshone is indeed a great property, although the vertical depth does not exceed 200 feet; on the lode, 2000 feet of development work has been done, and very high grade ore is disclosed. It is very promising, and it is estimated that there is now blocked out $100,000 worth of very high grade material. Of the values mentioned about 75 per cent is gold and the other 25 per cent is silver. Much visible gold was recently found in the vein, and there is now on the dump more than 200 tons that will go $85 per ton in gold and 150 tons which will average over $250 per ton, ready for shipment.

The Royal Bullion has a pay streak which carries $2600 per ton. It is a gold-silver-lead proposition.

A contract has been let for the construction of the Los Angeles and Tonopah railroad, and two [illegible] of [illegible], one of eleven and the other of fourteen cars are now on the ground.

The great water tank on the top of Montgomery mountain will be [illegible] 700 feet higher than the town of Beatty, and will give a pressure of [illegible].

A very important strike has been made in the Denver mine near Bullfrog.

The Tonopah-Goldfield Tunnel company is projecting two long tunnels under Bare mountain; one of them to be 6000 feet long and the other 4000 feet long. The immense undertaking will develop some of the richest ledges in that section.

The California Mining and Development Company, owners of the Sacramento mine in the White mountains about 17 miles from Bishop, will have their new mill in operation the early part of January.

The Myrtle and Julia Mining Company of Masonic mountain will lease such portions of their property as [illegible] may desire.

The advent of the new railroad has given quite an impetus to the mining interests of Cherry Creek, and among the mines getting ready to make heavy shipments are the Western Exploration Company, the National Mining Company and the Wild West Company; the latter having a large body of $60 ore in sight. The Hartford-Nevada owns thirty claims, and actively prosecuting development. The Gold Canyon Company is building a new mill.

The Eureka Con. and Richmond properties have been consolidated under one management to be known as the Richmond Eureka Mining Company and is capitalized for $2,000,000 and divided into 200,000 shares, nonassessable, $10 per share.

The officers of the new company are as follows: President, Albert Fries of New York; vice president, W. H. Coolidge of Boston; treasurer, Vincent J. Seligman of New York; general manager, A. P. Holden of Boston.

The board of directors consists of all the officers of the company, and Charles A. Wimpfheimer of New York, Walter E. Naumburg of New York; T. C. Clark of Boston, William Fries of San Francisco. A. P. Mayberry of Bingham, Utah, has been appointed superintendent.

Mining Man Visits Reno

C. D. Porter, an active mining man who has operated from Alaska and British Columbia to Mexico, stopped in Reno yesterday on his way from San Francisco to Salt Lake. For several years Mr. Porter has been operating the Balaklala mine in Shasta county. This copper property has been sold recently to a large eastern syndicate. Many old time friends greeted Mr. Porter yesterday and saw him off last night on the train for Salt Lake.

BONNIE CLAIRE HAS BIG SHOWING

Exploitation Discloses Rich Shoots of Ore in the Deepest Workings and Values Uniformly High

Recent exploitation on the Bonnie Claire, Bullfrog Mill and Mining Co. warrants the opinion that the ore shoots are continuous at depth. The property has been systematically developed for several months, with very gratifying results. The property has been a shipper for many years, in fact before Tonopah or Goldfield was on the map, and the uniform high grade secured in the small mill at Thorp's Well is a positive demonstration that good milling values are obtained. The American Mining Congress Will Demand From Congress Recognition in Federal Cabinet

Unquestionably a great deal of good will accrue to the mining industry as a result of the convention of the American Mining Congress at El Paso. Such meetings always result in great good. At them the most advanced thinkers upon [illegible] industry.

EDITORIAL COMMENT

Interesting Judicial Tangle

A CONTEMPORARY recently committed the error of saying that the only time the supreme court of the United States ever decided against the eight-hour law was in the case of the law regulating the hours of work of the New York bakers. The mistake lay in saying that the law about the bakers was an eight-hour law. It was really a ten-hour law, and that it came near to being sustained after all is attested by the following extract from the columns of an exchange:

"The ten-hour law for bakers in New York State had an interesting judicial experience. It was pronounced constitutional by the State Court of Appeals by a vote of four to three; then the United States supreme court pronounced it unconstutional by a vote of five to four. Combining the two courts, it will be found that sixteen judges passed upon the law, and that of the sixteen there were eight for the law and eight against it. The law is now null and void, because there is no appeal from the decision last handed down.

Haggard's Ghastly Dream

RIDER HAGGARD, the novelist, has just returned to England after a trip through the United States, during which he made an exhaustive study of socialogical conditions in this land. He says that the majority of the people here are enfeebled by life in the cities, and recommends as our only savation that we get back to the land. Otherwise, he predicts, an army of 400,000,000 Chinamen will swarm down upon our enfeebled nation and take possession.

Out upon such a prophet of evil! Not satisfied with being Haggard himself, he would make us haggard too.

H. H. ROGERS wore a Thomas W. Lawson pink in his buttonhole at the board of trade banquet in New York the other evening. In justice to Rogers it must be said that he did not know the name of the flower when he put it on, and when informed of it, it is said, the Standard Oil man used some language that would not look well in print.

A STORY in the current issue of Munsey's shows that Arthur McEwen has definitely embarked on the sea of fiction. His editorial work on the Bulletin during the recent municipal campaign in San Francisco showed that he was not altogether a 'prentice hand in the domain of imaginative effort.

A NEW YORK doctor says that the people of New York are living too fast and dying to fast. We agree with the first part of his statement, but as to the second we should prefer to think a while before committing ourself.

PARISIAN dispatches state that the latest thing in women's hats is a structure about four feet high. Every woman owns a "sky-scraper," and every other husband is studying the bankruptcy law.

NEXT time we hear of Sir Thomas Lipton he will probably be a lord. He stopped King Edward's nose-bleed by dropping a bunch of keys down that august monarch's back.

A SPECIAL dispatch to the Hearst papers speaking of a young woman suffering from a lack of food, says that "she presented a vacant appearance." Very likely.

LORD ROSEBERRY announces his unalterable opposition to Home Rule. That's an old state of mind for a widower who declines to marry again.

IT looks as though the Japs had the emperor of the Hermit Kingdom hermitically sealed.

Schmitz Gets There

IN declining the invitation of the Merchant's Association of San Francisco to their banquet, Mayor Schmitz simply handed that body the sort of package they deserved. The very same men snubbed him unmercifully by "forgetting to invite him to the banquet given Secretary Taft, and he would have shown himself utterly devoid of spirit had he not taken the first opportunity of resenting the insult.

THE appalling news comes over the wires that Mrs. Herman Oelrichs (formerly Miss Tessie Fair) is in great grief over the dangerous sickness of her pet poodle, "Louisette," valued at $50,000. Who, in contemplating the picture of this $50,000 pet French poodle, can have the hardihood to say that the Comstock mines were discovered in vain?

KING EDWARD has commanded that in future the Irish Industries Association shall be known as the Royal Irish Industries Association. That will have about the same effect upon the usefulness of the society in Ireland as if it had been subjected to the delicate attentions of a polecat.

CHAUNCEY DEPEW was not invited to the Battenberg banquet. Barred out of the "hupper suckles" of society as he is, he ought to be barred in from the other divisions of our social structure if he only got his due.

CHAUNCEY DEPEW says that the rumor of his resignation from the United States Senate is absurd. Of course, it is. Who ever heard of Chauncey letting go of anything not nailed down.

LIEUTENANT BURBANK, of the United States army, is threatened with dismissal merely because he tried to marry two women. Poor fellow! Won't even an insanity defence save him?

THE Korean Emperor agreed to sign the arrangement with Japan at the point of the bayonet. It was hard for the arguments of the Japs to convince him, but he finally saw the point.

AN American waffle kitchen has failed in London. American doughnuts may be a failure in England, but American dollars are just as popular as ever, especially among the eligible nobility.

THE Kaiser presented his portrait to a London club, and the members turned the picture to the wall. They knew that a club is made to "knock" with.

The PROPER THING

In Men's Fine Overcoats

TO BEGIN WITH—There are no arbitrary standards or laws for correct coats.

CUSTOM—The habit and practice of men who give much thought and careful attention to the strict proprieties of clothes; this is the chief guide.

THE THINGS—Which such men agree on, without any of the little extra "fads"—these are correct styles.

COMMON SENSE—Helps a good deal. The average man doesn't attempt to make the style. All he asks to know is what is correct; and somebody ought to tell him.

We don't intend to pose as law makers in the matter; we can tell you what is the custom of careful dressers as to propriety in dress; you will have to supply your own common sense.
